Biographical Information

Making Alaska Recession Proof, Championing Environmental Stewardship, and Negotiating a Sensible Balance of Regulation and Support From the Federal Government, So That We Alaskans Have Greater Autonomy to Address the Socioeconomic Crises Affecting Urban and Rural Communities.

I'm Shoshana Gungurstein, a hardworking community organizer, entrepreneur, investor, and business leader. Post J.D./MBA, my work experiences in corporate private sector and startup settings of finance, renewables, film, and healthcare, inform a multilateral and dynamic approach to implement sensible solutions as Alaska's Senator. Like many, I'm an Alaskan by choice — Moved here to build my dream, and Juneau is the only place that feels like home in the entire world. It's not the number of years of my life here in the upper one, but the unmatched, Alaskan life I've lived in those years that truly speak for my love of the state. Came for the nature, stayed for the Greatest People!

Position Statement

As an Independent Nonpartisan, I'll take an unwavering stance on issues in the Senate without pandering to party politics. I'll bring prosperity to our State, uphold our unifying sense of community, and protect our proud Alaskan way of life for generations to come.

- Implement inflation lowering measures now
- Reduce federal overreach on our resources and address land management issues — we are the environmental stewards to determine when to pump, mine, hunt, or harvest — not D.C.
- Improve food and housing security
- Keep politics out of education
- Transparent election process
- Improve childcare and foster care solutions
- Efficient marine highway
- Better healthcare access, improve rural medicine federal funding
- Improve conventional and smart infrastructure including better broadband
- Transportation infrastructure advances supporting autonomous development choices by Native communities
- Make Alaska the Silicon Valley of renewable energy
- Responsibly develop all our industries and the Made in Alaska brand
- Achieve term limits – three for Senate, better accountability, and representation
- Reduce our numbers of unhoused, increase support for those suffering from economic and mental health despair by accessing federal resources to resolve our growing crisis
- Uphold principles of Liberty, Privacy and Freedom – individuals may decide who to love, which faith and culture to practice, and what to do with their own bodies
- Address federal funding deficits to supplement our needs, and reduce wasteful spending by the state, ending the practice of dipping into the PFD to balance the budget. Stop the Steal — Full statutory PFD every year; ~\$5,200 in 2023.

North to the Future!
